A Courier arrived here from Ferrara, with Advice, that the Imperialiſts, after having received the 4000 Waggon Loads of Hay, which had been granted them, demanded alſo to be furniſh'd with Bread, Wine and Meat. The ſame Day a Courier arrived from Bologna, to acquaint the Government, that General Wallis demanded a Paſſage thro' the Eccleſiaſtical State, for a conſiderable Body of Troops, deſigned, as 'tis ſaid, to go and meet the Spaniards, and prevent their joining the Allies Army in Lombardy.

Modena, Jan. 22 We have revceiv'd Advice, that a Body of 500 Dragoons, 500 Huſſars, and 200 Imperial Foot are arrived at St. Felice; that another Body of 1000 Foot was arrived at Final; and that the Germans having demanded a Paſſage thro' the Pope's Territories for 15000 Men, Part of thoſe Troops were already arrived on the Frontiers of Bologna, and had thrown a Bridge over the River Panaro.

Mantua, Jan. 26. As there is an intire Want of Forage and Wood for Firing on the other Side of the Oglio, towards Cremona, Count Wallis has drawn the greateſt Part of the Troops to Canton them in the Seraglio. We have Plenty enough of Proviſions, but are likewiſe in Want of Wood, and the Number of Sick diminiſhes. There daily arrives here Recruits from Tyrol, from whence we ſtill expect 15000 Men, which are already arrived there, with a Squadron of Palſy's Regiment of Huſſars.

Mr. Robinſon, the Engliſh Miniſter, is going to make a Tour to Ratisbon, to execute a Commiſſion from the King his Maſter to the Dyet.

Warſaw, Jan 20. After that the Nuntio's of the Diſtrict of Zacrozin and Wizogrod had had their Audience of the King, thoſe of Dobzzin had one laſt Saturday, in which they altogether recognized his Majeſty for their lawful King, and beſeeched him to diſcharge them from furniſhing the proviſions demanded of them, to hold immediately a Dyet of pacification, and to ſet the primate at Liberty. The Biſhop of Cracow anſwered them in the King's Name, That his Majeſty receiv'd very graciouſly their Recognizance, That he diſcharged them from the proviſions demanded; and, That the Dyet of pacification ſhould be held as ſoon as the other Palatines ſhall be unanimouſly diſpoſed to unite; and to what concerns the perſon of the Primate, for whom the King has great Eſteem, his Majeſty's Deſign is to ſet him at liberty, as ſoon as he ſhall learn his real Sentiments and Deſigns. The Queen is expected to lie in by the End of this Month or the beginning of the next. Pala-

Palatine of Kiow and the Grand Marſhal of the Crown have refuſed to take the Oath of the Confederacy of Drykovia, on which Account they have not yet thought fit to confer the Offices under the Crown, which became vacant before the Coronation of King Staniſlaus. M. de Catwyk ſets out To-morrow for Leuwarden, to ſolicit the Prince of Orange for the Place of Droſſard at Breda, which is newly become vacant.

Hague, Feb. 11. His Excellency Mr. Walpole left this Place this Morning to go on board his Majeſty's Yatch at Helvoetſluys, in order to ſail with the firſt fair Wind for England. The States of Holland now ſitting, will continue their Aſſembly next Week. The great Storm we had lately, has occaſion'd already ſeveral Bankruptcies at Amſterdam, where 'tis computed at preſent, that the Loſs alone in the Texel amounts to above Four Millions of Florins. Two Eaſt India Ships that happened to ſail at that Time from Middlebourg for the Indies, periſhed with their whole Crews, at ſome Diſtance off the Coaſt of Zealand; whereupon the Eaſt India Stock is already fallen Five per Cent.

That 3000 Ruſſian Recruits had paſſed Riga, coming to join their Troops in Poland. That the Prince of Heſſe Homburg, with 3000 Horſe, had met and defeated 1500 Poles under Major General Krepetow (who deſigned to plunder and ruin the Eſtates of Prince Lubomirski) and killed 400 in the Purſuit. They write from Stockholm, that M. Beſtuchef, Miniſter of Ruſſia, received Orders from the Czarina to remain there till it be ſeen what will happen touching a General Peace.

Leghorn, Jan. 22. We have received Advice, that the Government of Genoa has recalled the two Senators who were ſent to Corſica to treat of an Accommodation with the Malecontents of that Iſland, and have nominated Meſſieurs Spinola and Grimaldi, to go thither in their Room; but 'tis aſſured, that the ſaid Malecontents have received a conſiderable Succour of Money and Ammunitions of War, tho' we know not by whom furniſhed; ſo that there ſeems little Proſpect of bringing them back to their Obedience.

Cologn, Feb. 4. The Elector of Palatine has reſolved to augment his Troops with Companies of Horſe and Foot. The Sickneſs continues ſtill at Worms, where Wood is ſo dear, that a Waggon Load is worth 16 German Florins 'Tis aſſured, that the Emperor has reſolved to ſend 40,000 Men more to Lombardy.

Hamburg, Feb. 4. Some Advices from Stockholm mention that the Count de Herberſtein, the Emperor's Miniſter, made preſſing Inſtances to induce the King of Sweden to conſent that the Heſſian Troops in his Imperial Majeſty's Pay, may go and ſerve in the Imperial Army in Lombardy.

The Deputies from the Town of Hamburg had the 31ſt paſt, their firſt Conference, at Copenhagen, with the Miniſters of the King's Privy Council, to whom, 'tis ſaid, their Propoſitions ſeemed reaſonable enough; ſo that there is great Hopes of a ſpeedy Accommo-

commodation of all Differences between his Daniſh Majeſty and that City.

They are very buſy at Dreſden coining a great Quantity of Gold and Silver Medals, to be diſtributed to the Grandees of Poland, at the General Dyet of Pacification; and they are alſo preparing to ſend to that Kingdom another great Sum of Money, negotiated at Leipſick, as 'tis ſuppoſed to pay off the Arrears of the Crown Army; Affairs now turning ſo favourable for King Auguſtus, that there is great Reaſon to believe that Poland will be once again reſtored to Peace.

The King of Pruſſia, who recovers ſtrength daily, has lately made a Preſent to the royal Society of Sciences eſtabliſhed at Berlin, of 3000 choice Books all very handſomely bound.

The laſt Letters from Modena mention, that they are extreamly embarraſſed by the great Number of French Troops they are obliged to quarter, there being ſo great a Want of Proviſions and Forage; and that other Troops were ſtill expected, which put the Inhabitants into a great Conſternation, and the more, as there was found one morning a Gibbet erected in the Grand Square to terrify the People.

We hear a Satyrical Medal has been lately ſtruck in a certain Neighbouring Country, famous for Pieces of Drollery and Humour, the Subject of which is the Situation of the Poliſh Affairs: That Republick is repreſented under the Figure of milch Cow, and the Czarina with a Pail under her Arm, endeavouring to milk her; the King of France is making towards her on the ſame Errand, but ſhe upps with her Leg and kicks the Bucket out of her Hand; the Emperor is for taking her by the Horns, but ſhe ſeems to have gored him in a dangerous Manner: King Staniſlaus and King Auguſtus hold Ropes about her Neck, and tries to pull her towards him: The King of Sweden ſees the Game at a Diſtance, and laughs in his Sleeve; and the King of Pruſſia catched a Pan of Milk, and is running away, ſipping as he goes.

We have an Account from France, that a Woman at Rheims in that Kingdom, having had nine Husbands, bred up 26 Children, and filled up the Meaſure of her Time with great Induſtry, died there lately at the Age of 102. She was attended to the Grave by 153 Children, Grand Children, and Great Grand-Children, ſome of the firſt upon Crutches, or blind, and led along by others. It is ſuppos'd they are the ſame gang who committed the late Robberies in Eſſex and Kent.
